# TIPS

## BEVERAGES

- Stay away from sugary soft drinks.
- Have skim milk in your coffee with no added sugar.
- Drink at least 8 glasses of water throughout the day. Water is essential for metabolism, so don't let your body beg you for a drink (coffee is not a replacement for water)
- Drink healthy beverages such as: green tea, herbal tea, unsweetened vegetable and fruit juice, and unsweetened tea.

## COOKING INGREDIENTS

- Use healthy cooking ingredients such as Dijon mustard, garlic, ginger, green onion, lemon juice, lime juice, olive oil, salsa, hot pepper sauce and herbs such as basil, cilantro, mint leaves, parsley, tarragon, ginger, etc.
- Use non-creamy, salad dressing such as red wine vinegar, balsamic vinegar and/or olive oil.

## MEAL REPLACEMENT

- Don't skip meals. But feel free to replace a snack for a snack or a meal for a meal from the list.

The quotes in this meal plan are Gilad's philosophical opinions to assist you with weight loss and maintain your progress.

Consult your physician before beginning this or any exercise program.
